

POLICY STATEMENT

Section 26.1, 26.23 Objectives/Policy Statement

City of Brownsville, owner of Brownsville South Padre Island International Airport has established a Disadvantaged Business Enterprise (DBE) Program in accordance with regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. City of Brownsville has received Federal financial assistance from the Department of Transportation, and as a condition of receiving this assistance, City of Brownsville has signed an assurance that it will comply with 49 CFR Part 26 (hereafter referred to as "Part 26").

It is the policy of the City of Brownsville to ensure that DBEs as defined in Part 26, have an equal opportunity to receive and participate in DOT-assisted contracts. It is also City of Brownsville policy to engage in the following actions on a continuing basis:

1. Ensure nondiscrimination in the award and administration of DOT- assisted contracts;
2. Create a level playing field on which DBEs can compete fairly for DOT- assisted contracts;
3. Ensure that the DBE Program is narrowly tailored in accordance with applicable law;
4. Ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs;
5. Help remove barriers to the participation of DBEs in DOT assisted contracts;
6. Promote the use of DBEs in all types of federally-assisted contracts and procurement activities;
7. Assist the development of firms that can compete successfully in the market place outside the DBE Program; and
8. Make appropriate use of the flexibility afforded to recipients of Federal financial assistance in establishing and providing opportunities for DBEs.

Gustavo Hernandez has been delegated as the DBE Liaison Officer. In that capacity, Gustavo Hernandez is responsible for implementing all aspects of the DBE program. Implementation of the DBE program is accorded the same priority as compliance with all other legal obligations incurred by the City of Brownsville in its financial assistance agreements with the Department of Transportation.

Brownsville South Padre Island International Airport has disseminated this policy statement to the City Council and all of the components of our organization. This statement has been distributed to DBE and non-DBE business communities that may perform work on City of Brownsville DOT-assisted contracts. The distribution was accomplished by posting it on the City and Airport's websites.

Date

GENERAL REQUIREMENTS

Section 26.1 Objectives

The objectives are elaborated in the policy statement on the first page of this program.

Section 26.3 Applicability

Brownsville South Padre Island International Airport is the recipient of Federal airport funds authorized by 49 U.S.C. 47101, *et seq.*

Section 26.5 Definitions

Brownsville South Padre Island International Airport will use terms in this program that have their meanings defined in Part 26, § 26.5.

Section 26.7 Non-discrimination Requirements

Brownsville South Padre Island International Airport will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR Part 26 on the basis of race, color, sex, or national origin.

In administering its DBE program, Brownsville South Padre Island International Airport will not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE program with respect to individuals of a particular race, color, sex, or national origin.

Section 26.11 Data Collection and Reporting Requirements

Reporting to DOT

Brownsville South Padre Island International Airport will provide data about its DBE Program to the Department as directed by DOT and its operating administrations.

DBE participation will be reported to the Federal Aviation Administration (FAA) as follows:

Brownsville South Padre Island International Airport will transmit to FAA annually, by or before December 1, the information required for the "Uniform Report of DBE Awards or Commitments and Payments", as described in Part 26. Brownsville/South Padre Island International Airport will similarly report the required information about participating DBE firms. All reporting for this purpose will be done through the FAA's designated reporting system.

Bidders List

Brownsville South Padre Island International Airport will collect bidders list information as described in § 26.11(c)(2) and enter it into the system designated by DOT. The purpose of the bidders list is to compile as accurate data as possible about the universe of DBE and non-DBE contractors and subcontractors who seek to work on our federally assisted contracts for use in helping you set your overall goals, and to provide the Department with data for evaluating the extent to which the objectives of § 26.1 are being achieved.

Brownsville South Padre Island International Airport will obtain the following bidders list information about all DBE and non-DBEs who bid as prime contractors and subcontractors on each of our federally assisted contracts:

- Firm name
- Firm Address including Zip code
- Firm's status as a DBE or non-DBE
- Race and gender information for the firm's majority owner
- NAICS code applicable to each scope of work the firm sought to perform in its bid
- Age of the firm
- Annual gross receipts of the firm. The gross receipts can be obtained by asking each firm to indicate into what gross receipts bracket they fit (e.g. less than \$1 million; \$1-3 million; \$3-6 million; \$6-10 million, etc) rather than requesting an exact figure from the firm.

Brownsville South Padre Island International Airport will collect the data from all bidders for our federally assisted contracts by requiring the information in paragraph (c)(2) of this section to be submitted with their bids or initial responses to negotiated procurements.

Brownsville South Padre Island International Airport will enter this data in the Department's designated system no later than December 1 following the fiscal year in which the relevant contract was awarded.

In the case of a "design-build" contracting situation where subcontracts will be solicited throughout the contract period as defined in a DBE Performance Plan pursuant to § 26.53(e), Brownsville South Padre Island International Airport will enter the data no later than December 1 following the fiscal year in which the design-build contractor awards the relevant subcontract(s).

Section 26.13 Assurances Recipients and Contractors Must Make

Brownsville South Padre Island International Airport has signed the following assurances, applicable to all DOT-assisted contracts and their administration:

Assurance: - Each financial assistance agreement Brownsville South Padre Island International Airport signs with a DOT operating administration (or a primary recipient) will include the following assurance:

The Brownsville South Padre Island International Airport shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Brownsville South Padre Island International Airport shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts. The Brownsville South Padre Island International Airport DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Brownsville South Padre Island International Airport of its failure to carry out its approved program, the Department may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 *et seq.*).

Contract Assurance: Brownsville South Padre Island International Airport will ensure that the following clause is included in each DOT-funded contract it signs with a contractor (and each subcontract the prime contractor signs with a subcontractor):

The contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

- 1) Withholding monthly progress payments;
- 2) Assessing sanctions;
- 3) Liquidated damages; and/or
- 4) Disqualifying the contractor from future bidding as non-responsible.

ADMINISTRATIVE REQUIREMENTS

Section 26.21 DBE Program Updates

Brownsville South Padre Island International Airport is required to have a DBE program meeting the requirements of this part as it will receive grants for airport planning or development and will award prime contracts, cumulative total value of which exceeds \$250,000 in FAA funds in a federal fiscal year.

Brownsville South Padre Island International Airport is not eligible to receive DOT financial assistance unless DOT has approved this DBE program and Brownsville/South

Padre Island International Airport is in compliance with it and Part 26. Brownsville South Padre Island International Airport will continue to carry out this program until all funds from DOT financial assistance have been expended. Brownsville South Padre Island International Airport does not have to submit regular updates of the DBE program document, as long as it remains in compliance. However, significant changes in the program, including those required by regulatory updates, will be submitted to the relevant operating administration for approval.

Section 26.23 Policy Statement

The Policy Statement is elaborated on the first page of this DBE Program.

Section 26.25 DBE Liaison Officer (DBELO)

The following individual has been designated as the DBE Liaison Officer for Brownsville South Padre Island International Airport:

Gustavo Hernandez
Accountant
700 Amelia Earhart Dr
Brownsville, TX 78521
956-548-0196
Gustavo.hernandez@brownsvilletx.gov

In that capacity, the DBELO is responsible for implementing all aspects of the DBE program and ensuring that the Brownsville South Padre Island International Airport complies with all provision of 49 CFR Part 26. The DBELO has direct, independent access to the Airport Director concerning DBE program matters. An organizational chart displaying the DBELO's position in the organization is included in Attachment 2 to this program.

The DBELO is responsible for developing, implementing, and monitoring the DBE program, in coordination with other appropriate officials. The DBELO has a staff of consultant engineers to assist in the administration of the program. The duties and responsibilities include the following:

1. Gathers and reports statistical data and other information as required by DOT.
2. Reviews third party contracts and purchase requisitions for compliance with this program.
3. Works with all departments to set overall annual goals.
4. Ensures that bid notices and requests for proposals are available to DBEs in a timely manner.
5. Identifies contracts and procurements so that DBE goals are included in solicitations (both race-neutral methods and contract specific goals) and monitors results.

6. Analyzes Brownsville South Padre Island International Airport's progress toward attainment and identifies ways to improve progress.
7. Participates in pre-bid meetings.
8. Advises the CEO/governing body on DBE matters and achievement.
9. Chairs the DBE Advisory Committee.
10. Determine contractor compliance with good faith efforts.
11. Provides DBEs with information and assistance in preparing bids, obtaining bonding and insurance.
12. Plans and participates in DBE training seminars.
13. Provides outreach to DBEs and community organizations to advise them of opportunities.

Section 26.27 DBE Financial Institutions

It is the policy of Brownsville South Padre Island International Airport to investigate the full extent of services offered by financial institutions owned and controlled by socially and economically disadvantaged individuals in the community, to make reasonable efforts to use these institutions, and to encourage prime contractors on DOT-assisted contracts to make use of these institutions. Availability of such institutions will be investigated on an annual basis.

The most current information available in the TxDOT TUCP Directory shows there are no DBE certified financial institutions.

Section 26.29 Prompt Payment Mechanisms

Brownsville South Padre Island International Airport requires that all subcontractors performing work on DOT-assisted contracts shall be promptly paid for work performed pursuant to their agreements, in accordance with all relevant federal, state, and local law. Prompt payment and return of retainage requirements also apply to lower-tier subcontractors.

In accordance with 49 CFR § 26.29, the Brownsville South Padre Island International Airport established a contract clause implementing this requirement and requires prime contractors to pay subcontractors for satisfactory performance of their contracts no later than 30 days from the prime contractor's receipt of each payment from the Brownsville South Padre Island International Airport.

Brownsville South Padre Island International Airport ensures prompt and full payment of retainage from the prime contractor to the subcontractor within 30 days after the subcontractor's work is satisfactorily completed. Pursuant to § 26.29, Brownsville South Padre Island International Airport has selected the following method to comply with this requirement:

Brownsville South Padre Island International Airport will hold retainage from prime contractors and provide for prompt and regular incremental acceptances of

portions of the prime contract, pay retainage to prime contractors based on these acceptances, and require a contract clause obligating the prime contractor to pay all retainage owed to the subcontractor for satisfactory completion of the accepted work within 30 days after Brownsville South Padre Island International Airport payment to the prime contractor.

For every airport construction project funded under Federal grant assistance programs, Brownsville South Padre Island International Airport includes the applicable clause from FAA Advisory Circular 150/5370-10 (Section 90-06) pertaining to the selected retainage method. The applicable clause will be included verbatim. However, if state or local prompt payment laws provide for payment in less than 30 days, any reference to “30 days” will be revised accordingly.

Prompt Payment Monitoring for DBEs and Non-DBEs

Brownsville South Padre Island International Airport clearly understands and acknowledges that reliance on complaints or notifications from subcontractors about a contractor’s failure to comply with prompt payment and retainage requirements is not a sufficient monitoring and oversight mechanism. Therefore, Brownsville South Padre Island International Airport undertakes proactive monitoring and oversight of prime contractors’ compliance with subcontractor prompt payment and return of retainage requirements of 49 CFR Part 26. Such monitoring activities will be accomplished through the following method(s):

Emailing the subcontractors when a prime contractor payment is made to alert them to the start of the 30-day clock for payment.

Brownsville South Padre Island International Airport requires prime contractors to maintain records and documents of payments to subcontractors, including DBEs, for a minimum of three (3) years unless otherwise provided by applicable record retention requirements for the Brownsville South Padre Island International Airport’s financial assistance agreement, whichever is longer. These records will be made available for inspection upon request by any authorized representative of Brownsville South Padre Island International Airport or DOT. This reporting requirement extends to all subcontractors, both DBE and non-DBE.

- Brownsville South Padre Island International Airport proactively reviews contract payments to subcontractors including DBEs on a monthly basis. Payment reviews will evaluate whether the actual amount paid to DBE subcontractors is equivalent to the amounts reported to Brownsville South Padre Island International Airport by the prime contractor.

Prompt Payment Dispute Resolution

Brownsville South Padre Island International Airport will take the following steps to resolve disputes as to whether timely prompt payment and retainage releases are being made as required by § 26.29.

Brownsville South Padre Island International Airport has established, as part of its DBE program, the following mechanism(s) to ensure prompt payment and return of retainage:

(1) Alternative dispute resolution (ADR)

The prime contractor agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than Thirty (30) days from the receipt of each payment the prime contractor receives from Brownsville South Padre Island International Airport. The prime contractor agrees further to return retainage payments to each subcontractor within Thirty (30) days after the subcontractors work is satisfactorily completed. Any delay or postponement of payment from the above referenced timeframe may occur only for good cause following written approval of the Brownsville South Padre Island International Airport. This clause applies to both DBE and non-DBE subcontractors.

(2) A contract clause providing that the prime contractor will not be reimbursed for work performed by subcontractors unless and until the prime contractor ensures that the subcontractors are promptly paid for the work they have performed.

The Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of Department of Transportation assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the Owner deems appropriate, which may include, but is not limited to:

- 1) Withholding monthly progress payments.
- 2) Assessing sanctions.
- 3) Liquidated damages; and/or
- 4) Disqualifying the Contractor from future bidding as non-responsible.

(3) Other mechanisms

The Contractor shall deliver to the Owner a complete release of all claims for labor and material arising out of this contract before the final payment is made. If any subcontractor or supplier fails to furnish such a release in full, the Contractor may furnish a bond or other collateral satisfactory to the Owner to indemnify the Owner against any potential lien or other such claim. The bond or collateral shall include all costs, expenses, and attorney fees the Owner may be compelled to pay in discharging any such lien or claim.

Prompt Payment Complaints

Complaints by subcontractors regarding the prompt payment requirements are handled according to the following procedure.

- If affected subcontractor is not comfortable contracting prime directly regarding payment or unable to resolve payment discrepancies with prime, subcontractor should contact DBELO to initiate complaint.
- If filing a prompt payment complaint with the DBELO does not result in timely and meaningful action by Brownsville South Padre Island International Airport to resolve prompt payment disputes, affected subcontractor may contact the responsible FAA contact.
- Pursuant to Sec. 157 of the FAA Reauthorization Act of 2018, all complaints related to prompt payment will be reported in a format acceptable to the FAA, including the nature and origin of the complaint and its resolution.

Enforcement Actions for Noncompliance of Participants

Brownsville South Padre Island International Airport provides appropriate means to enforce the requirements of § 26.29. These means include:

1. We will bring to the attention of the Department of Transportation any false, fraudulent, or dishonest conduct in connection with the program, so that DOT can take the steps (e.g., referral to the Department of Justice for criminal prosecution, referral to the DOT Inspector General, action under suspension and debarment or Program Fraud and Civil Penalties rules) provided in 26.107.
2. We will implement similar action under our own legal authorities, including responsibility determinations in future contracts. Attachment 7 lists the regulation, provisions, and contract remedies available to us in the events of non-compliance with the DBE regulation by a participant in our DBE Program.
3. We will implement a monitoring and enforcement mechanism to ensure that work committed to DBEs at contract award or subsequently (i.e., as the

result of modification to the contract) is actually performed by the DBEs to which the work was committed.

4. We will implement a monitoring and enforcement mechanism that will include written certification that we have reviewed contracting records and monitored work sites for this purpose. Monitoring will follow the Airport's purchasing policies and will align with standard contract performance practices.

5. We will implement a mechanism that will provide for a running tally of actual DBE attainments (e.g., payment actually made to DBE firms), including a means of comparing these attainments to commitments. In our reports of DBE participation to DOT, we will show both commitments and attainments, as required by the DOT uniform reporting form.

Brownsville South Padre Island International Airport will actively implement the enforcement actions detailed above.

Section 26.31 Directory of Certified Firms

Brownsville South Padre Island International Airport is a non-certifying member of the Texas Unified Certification Program (UCP). The UCP maintains a directory identifying all firms eligible to participate as DBEs and/or ACDBEs, and it contains all the elements required by §26.31. The directory lists all firms eligible to participate as a DBE and/or ACDBE in the program. In the listing for each firm, the UCP directory includes the following details about the firm:

- Business address
- Business phone number
- Firm website(s)
- The types of work the firm has been certified to perform as a DBE and/or ACDBE.
- The type of work a DBE and/or ACDBE is eligible to perform is listed by using the most specific NAICS code available to describe each type of work the firm performs. Pursuant to § 26.81(n)(1) and (3), the UCP directory allows for NAICS codes to be supplemented with specific descriptions of the type(s) of work the firm performs.
- The UCP directory may include additional data fields of other items readily verifiable in State or locally maintained databases, such as State licenses held, Pre-qualifications, and Bonding capacity.
- The UCP directory is an online system that permits the public to search and/or filter for DBEs by:
 1. Physical location
 2. NAICS code(s)
 3. Work descriptions
 4. All additional data fields of readily verifiable optional information described above.

The directory includes a prominently displayed disclaimer that states the information within the directory is not a guarantee of the DBE's capacity and ability to perform work.

Section 26.33 Over-concentration

Brownsville South Padre Island International Airport has not identified that over-concentration exists in the types of work that DBEs perform.

Section 26.35 Business Development and Mentor-Protégé Programs

Brownsville South Padre Island International Airport has not established a Business Development Program or a Mentor-Protégé Program as described by 49 CFR Part 26.

Section 26.37 Monitoring Responsibilities

Brownsville South Padre Island International Airport implements and carries out appropriate mechanisms to ensure compliance with 49 CFR Part 26 program requirements by all program participants, and describes and sets forth these mechanisms in this DBE program.

Brownsville South Padre Island International Airport actively monitors attainment toward overall goals by maintaining running tally that provides for a frequent comparison of cumulative DBE awards/commitments to DOT-assisted prime contract awards to determine whether our implementation of contract goals is projected to be sufficient to meet the annual goal. The running tally for overall goal monitoring will be maintained by keeping a spreadsheet record of all projects and DBE's associated with the airport. This mechanism to maintain a running tally of overall goal attainment will be used to inform Brownsville South Padre Island International Airport's decisions to implement goals on contracts to be advertised, according to our established contract goal-setting process.

Brownsville South Padre Island International Airport actively monitors participation with respect to each DBE commitment by using a running tally that provides for a frequent comparison of payments made to each listed DBE relative to the progress of work, including payments for such work to the prime contractor. The running tally for contract goal monitoring will be maintained by requiring contractors to provide DBE participation data with their pay applications or they won't get paid until provided. These contract-specific running tallies will be used to determine whether the contractor is on track with meeting its DBE commitment and whether any projected shortfall exists that requires the prime contractor's good faith efforts to address to meet the contract goal pursuant to § 26.53(g).

Monitoring Contracts and Work Sites

Brownsville South Padre Island International Airport reviews contracting records and engages in active monitoring of work sites to ensure that work committed to DBEs at contract award or subsequently (e.g., as the result of modification to the contract) is actually performed by the DBEs to which the work was committed, and such work is

counted according to the requirements of § 26.55. Work site monitoring for counting and commercially useful function review is performed by Project Management Office and Onsite Consultant Engineer. The monitoring of work sites to assess commercially useful functions will include interviews with staff members and supervisors at the job site, photographic documentation of people and equipment performing the work, reviews of invoices and supply payments, vehicle and equipment ownership or lease verification (such as registration or lease agreements), and any other supporting documents necessary to determine the business is performing a commercially useful function.

Contracting records are reviewed by Consultant Engineers. Brownsville South Padre Island International Airport will require prime contractors provide copies of subcontracts for review. Reviews of contracting records will include verifying mandatory contract language is included in prime and subcontracts, verifying prohibited terms and conditions are not present, and to confirm the type and amount of work described in a subcontract aligns with representations made by the prime and subcontractor in any related letters of intent. Brownsville South Padre Island International Airport will maintain written certification that contracting records have been reviewed and work sites have been monitored to ensure the counting of each DBE's participation is consistent with its function on the contract.

Section 26.39 Fostering Small Business Participation

Brownsville South Padre Island International Airport has created a Small Business element to structure contracting requirements to facilitate competition by small business concerns, taking all reasonable steps to eliminate obstacles to their participation, including unnecessary and unjustified bundling of contract requirements that may preclude small business participation in procurements as prime contractors or subcontractors.

The small business element is incorporated as Attachment 10 to this DBE Program. The program elements will be actively implemented to foster small business participation. Brownsville South Padre Island International Airport acknowledges that implementation of the small business element is required for us to be considered by DOT as implementing our DBE program in good faith.

GOALS, GOOD FAITH EFFORTS, AND COUNTING

Section 26.43 Set-asides or Quotas

Brownsville South Padre Island International Airport does not use quotas or race-conscious set-asides in any way in the administration of this DBE program.

Section 26.45 Overall Goals

Brownsville South Padre Island International Airport will establish an overall DBE goal covering a three-year federal fiscal year period if it anticipates awarding DOT-funded prime contracts the cumulative total value of which exceeds \$250,000 in DOT funds during any one or more of the reporting fiscal years within the three-year goal period. In accordance with §26.45(f), Brownsville South Padre Island International Airport will submit its Overall Three-year DBE Goal to FAA by August 1st of the year in which the goal is due, as required by the schedule established by FAA.

The DBE goals will be established in accordance with the 2-step process as specified in 49 CFR Part 26.45. If Brownsville South Padre Island International Airport does not anticipate awarding prime contracts the cumulative total value of which exceeds \$250,000 in DOT funds during any of the years within the three-year reporting period, an overall goal will not be developed. However, this DBE Program will remain in effect and Brownsville South Padre Island International Airport will seek to fulfill the objectives outlined in 49 CFR Part 26.1.

Step 1. The first step is to determine a base figure for the relative availability of DBEs in the market area. Brownsville South Padre Island International Airport will use a Bidders List, a Disparity Study, the goal of another DOT Recipient, DBE Directory information and Census Bureau Data, or other alternative method that complies with §26.45 as a method to determine the base figure. Brownsville South Padre Island International Airport understands that the exclusive use of a list of prequalified contractors or plan holders, or a bidders list that does not comply with the requirements of 49 CFR Part 26.45(c)(2), is not an acceptable alternative means of determining the availability of DBEs.

Step 2. The second step is to adjust, if necessary, the “base figure” percentage from Step 1 so that it reflects as accurately as possible the DBE participation the recipient would expect in the absence of discrimination. Adjustments may be made based on past participation, information from a disparity study (to the extent it is not already accounted for in the base goal), and/or information about barriers to entry to past competitiveness of DBEs on contracts. Brownsville South Padre Island International Airport will examine all of the evidence available in its jurisdiction to determine what adjustment, if any, is needed. If the evidence does not suggest an adjustment is necessary, then no adjustment shall be made.

Any methodology selected will be based on demonstrable evidence of local market conditions and be designed to ultimately attain a goal that is rationally related to the relative availability of DBEs in the Brownsville South Padre Island International Airport market.

In establishing the overall goal, Brownsville South Padre Island International Airport will provide for consultation and publication. This includes consultation with minority, women’s and general contractor groups, community organizations, and other officials or

organizations which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and the efforts by Brownsville South Padre Island International Airport to establish a level playing field for the participation of DBEs. The consultation will include a scheduled, direct, interactive exchange (e.g., a face-to-face meeting, video conference, teleconference) with as many interested stakeholders as possible focused on obtaining information relevant to the goal setting process, and it will occur before Brownsville South Padre Island International Airport is required to submit the goal methodology to the operating administration for review pursuant to §26.45(f). The goal submission will document the consultation process in which Brownsville South Padre Island International Airport engaged. Notwithstanding paragraph (f)(4) of §26.45, the proposed goal will not be implemented until this requirement is met.

In addition to the consultation described above, Brownsville South Padre Island International Airport will publish a notice announcing the proposed overall goal before submission to the FAA on August 1st. The notice will be posted on Brownsville South Padre Island International Airport's official internet web site and may be posted in other sources (e.g., minority-focused media, trade association publications). If the proposed goal changes following review by FAA, the revised goal will be posted on Brownsville/South Padre Island International Airport's official internet web site.

The Overall Three-Year DBE Goal submission to FAA will include any information and comments received, who provided the comment, and how Brownsville South Padre Island International Airport considered and responded to any comments and information received before finalizing the goal.

Brownsville South Padre Island International Airport will begin using the overall goal on October 1 of the relevant period, unless other instructions from FAA have been received.

Project Goals

If permitted or required by the FAA, an overall goal may be expressed as a percentage of funds for a particular grant or project or group of grants and/or projects, including entire projects. Like other overall goals, a project goal may be adjusted to reflect changed circumstances, with the concurrence of the appropriate operating administration. A project goal is an overall goal, and it must meet all the substantive and procedural requirements pertaining to overall goals. A project goal covers the entire length of the project to which it applies. The project goal will include a projection of the DBE participation anticipated to be obtained during each fiscal year covered by the project goal. The funds for the project to which the project goal pertains are separated from the base from which the regular overall goal, applicable to contracts not part of the project covered by a project goal, is calculated.

Prior Operating Administration Concurrence

Brownsville South Padre Island International Airport understands that prior FAA concurrence with the overall goal is not required. However, if the FAA review suggests

that the overall goal has not been correctly calculated or that the method employed by Brownsville South Padre Island International Airport for calculating goals is inadequate, FAA may, after consulting with Brownsville South Padre Island International Airport, adjust the overall goal or require that the goal be adjusted by Brownsville South Padre Island International Airport. The adjusted overall goal is binding. In evaluating the adequacy or soundness of the methodology used to derive the overall goal, the U.S. DOT operating administration will be guided by the goal setting principles and best practices identified by the Department in guidance issued pursuant to § 26.9.

A description of the methodology to calculate the overall goal and the goal calculations can be found in Attachment 5 to this program.

Section 26.47 Failure to meet overall goals

Brownsville South Padre Island International Airport cannot be penalized, or treated by the Department as being in noncompliance with Part 26, because DBE participation falls short of an overall goal, unless Brownsville South Padre Island International Airport fails to administer its DBE program in good faith.

Brownsville South Padre Island International Airport understands that to be considered to be in compliance with this part, an approved DBE Program and overall DBE goal, if applicable, must be maintained, and this DBE Program must be administered in good faith.

Brownsville South Padre Island International Airport understands that if the awards and commitments shown on the Uniform Report of Awards or Commitments and Payments at the end of any fiscal year are less than the overall goal applicable to that fiscal year, the following actions must be taken in order to be regarded by the Department as implementing this DBE Program in good faith:

- (1) Analyze in detail the reasons for the difference between the overall goal and the awards and commitments in that fiscal year;
- (2) Establish specific steps and milestones to correct the problems identified in the analysis to enable the goal for the new fiscal year to be fully met;
- (3) Brownsville/South Padre Island International Airport will prepare, within 90 days of the end of the fiscal year, the analysis and corrective actions developed under paragraph (c)(1) and (2) of this section. We will retain copy of analysis and corrective actions in records for a minimum of three years and will make it available to FAA upon request.

Section 26.51 Means Recipients Use to Meet Overall Goals

Breakout of Estimated Race-Neutral & Race-Conscious Participation

Brownsville South Padre Island International Airport will meet the maximum feasible portion of its overall goal by using race-neutral means of facilitating race-neutral DBE participation. Race-neutral DBE participation includes any time a DBE wins a prime contract through customary competitive procurement procedures or is awarded a subcontract on a prime contract that does not carry a DBE contract goal.

Race-neutral means include, but are not limited to the following:

1. Arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate participation by DBEs and other small businesses and by making contracts more accessible to small businesses, by means such as those provided under §26.39.
2. Providing assistance in overcoming limitations such as inability to obtain bonding or financing (e.g., by such means as simplifying the bonding process, reducing bonding requirements, eliminating the impact of surety costs from bids, and providing services to help DBEs, and other small businesses, obtain bonding and financing);
3. Providing technical assistance and other services;
4. Carrying out information and communications programs on contracting procedures and specific contract opportunities (e.g., ensuring the inclusion of DBEs, and other small businesses, on recipient mailing lists for bidders; ensuring the dissemination to bidders on prime contracts of lists of potential subcontractors; provision of information in languages other than English, where appropriate);
5. Implementing a supportive services program to develop and improve immediate and long-term business management, record keeping, and financial and accounting capability for DBEs and other small businesses;
6. Providing services to help DBEs, and other small businesses, improve long-term development, increase opportunities to participate in a variety of kinds of work, handle increasingly significant projects, and achieve eventual self-sufficiency;
7. Establishing a program to assist new, start-up firms, particularly in fields in which DBE participation has historically been low;
8. Ensuring distribution of the DBE directory, through print and electronic means, to the widest feasible universe of potential prime contractors; and
9. Assisting DBEs, and other small businesses, to develop their capability to utilize emerging technology and conduct business through electronic media.

The breakout of estimated race-neutral and race-conscious participation can be found in Attachment 5 to this program.

Brownsville South Padre Island International Airport will arrange solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate participation by DBEs and other small businesses and by making contracts more accessible to small businesses, by means such as those provided under §26.39.

Contract Goals

If the approved projection under paragraph (c) of §26.51 estimates that the entire overall goal for a given year can be met through race-neutral means, contract goals will not be set during that year, unless the use of contract goals becomes necessary in order to meet the overall goal.

If Brownsville South Padre Island International Airport's approved projection under paragraph(c) of this section estimates that we can meet our entire overall goal for a given year through race-neutral means, we will implement our program without setting contract goals during that year, unless it becomes necessary in order to meet the overall goal.

Contract goals will be established only on those DOT-assisted contracts that have subcontracting possibilities. A contract goal need not be established on every such contract, and the size of contract goals will be adapted to the circumstances of each such contract (e.g., type and location of work, availability of DBEs to perform the particular type of work).

Contract goals will be expressed as a percentage of the Federal share of a DOT-assisted contract.

Section 26.53 Good Faith Efforts Procedures in Situations where there are Contract Goals

Demonstration of good faith efforts (pre-award)

In cases where a contract goal has been established, the contract in question will only be awarded to a bidder/offeror that has made good faith efforts to meet the contract goal. The bidder/offeror can demonstrate that it has made good faith efforts by either meeting the contract goal or documenting that it has made adequate good faith efforts to do so. Examples of good faith efforts are found in Appendix A to Part 26.

Gustavo Hernandez, DBELO is responsible for determining whether a bidder/offeror who has not met the contract goal has documented sufficient good faith efforts to be regarded as Responsive.

Brownsville South Padre Island International Airport will ensure that all information is complete and accurate and adequately documents the bidder/offeror's good faith efforts before committing to the performance of the contract by the bidder/offeror.

In all solicitations for DOT-assisted contracts for which a contract goal has been established, the following information will be required of every bidder/offeror:

- (1) Award of the contract will be conditioned on meeting the requirements of this section;
- (2) All bidders or offerors will be required to submit the following information to the recipient, at the time provided in paragraph (3) of this section:
 - a. The names and addresses of DBE firms that will participate in the contract;
 - b. A description of the work that each DBE will perform. To count toward meeting a goal, each DBE firm must be certified in a NAICS code applicable to the kind of work the firm would perform on the contract;
 - c. The dollar amount of the participation of each DBE firm participating;
 - d. Written documentation of the bidder/offeror's commitment to use a DBE subcontractor whose participation it submits to meet a contract goal; and
 - e. Written confirmation from each listed DBE firm that it is participating in the contract in the kind and amount of work provided in the prime contractor's commitment. Each DBE listed to perform work as a regular dealer or distributor must confirm its participation according to the requirements of § 26.53 (c)(1).
 - f. If the contract goal is not met, evidence of good faith efforts (as elaborated in Appendix A of Part 26). The documentation of good faith efforts must include copies of each DBE and non-DBE subcontractor quote submitted to the bidder when a non-DBE subcontractor was selected over a DBE for work on the contract;
- (3) The bidder/offeror will be required to present the information stipulated in paragraph (2) of this section:
- (4) Under sealed bid procedures, as a matter of responsiveness, or with initial proposals, under contract negotiation procedures;

Provided that, in a negotiated procurement, such as a procurement for professional services, the bidder/offeror may make a contractually binding commitment to meet the goal at the time of bid submission or the presentation of initial proposals but provide the information required by paragraph (b)(2) of this section before the final selection for the contract is made by Brownsville South Padre Island International Airport. This paragraph (b)(3)(ii) does not apply to a design-build procurement, which must follow the provisions in paragraph (e) of 49 CFR § 26.53.

For each DBE listed as a regular dealer or distributor Brownsville South Padre Island International Airport will make a preliminary counting determination to assess its eligibility for 60 or 40 percent credit, respectively, of the cost of materials and supplies based on its demonstrated capacity and intent to perform as a regular dealer or distributor, as defined in §§ 26.55(e)(2)(iv)(A), (B), (C), and (3) under the contract at issue. The preliminary determination will be made based on the DBE's written responses to relevant questions and its affirmation that its subsequent performance of a commercially useful function will be consistent with

the preliminary counting of such participation. Where the DBE supplier does not affirm that its participation will meet the specific requirements of either a regular dealer or distributor, Brownsville South Padre Island International Airport will make appropriate adjustments in counting such participation toward the bidder's good faith efforts to meet the contract goal. The bidder is responsible for verifying that the information provided by the DBE supplier is consistent with the counting of such participation toward the contract goal.

In a design-build contracting situation, in which Brownsville South Padre Island International Airport solicits proposals to design and build a project with minimal project details at time of letting, Brownsville South Padre Island International Airport may set a DBE goal that proposers must meet by submitting a DBE Open-Ended DBE Performance Plan (OEPP) with the proposal. The OEPP replaces the requirement to provide the information required in paragraph (b) of § 26.53(b). To be considered responsive, the OEPP must include a commitment to meet the goal and provide details of the types of subcontracting work or services (with projected dollar amounts) that the proposer will solicit DBEs to perform. The OEPP must include an estimated time frame in which actual DBE subcontracts would be executed. Once the design-build contract is awarded, Brownsville South Padre Island International Airport will provide ongoing monitoring and oversight to evaluate whether the design-builder is using good faith efforts to comply with the OEPP and schedule. Brownsville South Padre Island International Airport and the design-builder may agree to make written revisions of the OEPP throughout the life of the project, e.g., replacing the type of work items the design-builder will solicit DBEs to perform and/or adjusting the proposed schedule, as long as the design-builder continues to use good faith efforts to meet the goal.

Brownsville South Padre Island International Airport will apply the requirements of this section to DBE bidders/offers for prime contracts. In determining whether a DBE bidder/offeror for a prime contract has met a contract goal, Brownsville South Padre Island International Airport will count the work the DBE has committed to performing with its own forces as well as the work that it has committed to be performed by DBE subcontractors and DBE suppliers.

Administrative Reconsideration of Good Faith Efforts determinations

Within 5 days of being informed by Brownsville South Padre Island International Airport that it is not responsive because it has not documented adequate good faith efforts, a bidder/offeror may request administrative reconsideration. Bidder/offerors should make this request in writing to the following reconsideration official:

Angel Ramos, Airport Director
700 Amelia Earhart Dr.
Brownsville, Texas 78521
956-542-4373
Angel.ramos@brownsvilletx.gov

The reconsideration official will not have played any role in the original determination that the bidder/offeror did not document sufficient good faith efforts.

As part of this reconsideration, the bidder/offeror will have the opportunity to provide written documentation or argument concerning the issue of whether it met the goal or made adequate good faith efforts to do so. The bidder/offeror will have the opportunity to meet in person with the reconsideration official to discuss the issue of whether the goal was met or the bidder/offeror made adequate good faith efforts to do. The bidder/offeror will be sent a written decision on reconsideration, explaining the basis for finding that the bidder did or did not meet the goal or make adequate good faith efforts to do so. The result of the reconsideration process is not administratively appealable to the Department of Transportation.

Good Faith Efforts procedural requirements (post-solicitation/award)

Brownsville South Padre Island International Airport will include in each prime contract the contract clause required by § 26.13(b) stating that failure by the contractor to carry out the requirements of this part is a material breach of the contract and may result in the termination of the contract or such other remedies set forth in that section that Brownsville South Padre Island International Airport deems appropriate if the prime contractor fails to comply with the requirements of this section.

Brownsville South Padre Island International Airport will require the awarded contractor to make available upon request a copy of all DBE subcontracts. The contractor shall ensure that all subcontracts or agreements with DBEs to supply labor or materials include all required contract provisions and mandate that the subcontractor and all lower tier subcontractors perform in accordance with the provisions of Part 26.

Brownsville South Padre Island International Airport will require that a prime contractor not terminate a DBE or any portion of its work listed in response to § 26.53(b)(2) (or an approved substitute DBE firm per § 26.53(g)) without our prior written consent, unless Brownsville South Padre Island International Airport causes the termination or reduction. A termination includes any reduction or underrun in work listed for a DBE not caused by a material change to the prime contract by the recipient. This requirement applies to instances that include but are not limited to: when a prime contractor seeks to perform work originally designed for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm.

Brownsville South Padre Island International Airport will include in each prime contract a provision stating that:

- (1) The contractor must utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains Brownsville South Padre Island International Airport's written consent as provided in § 26.53(f); and
- (2) Unless Brownsville South Padre Island International Airport's consent is provided under § 26.53(f), the prime contractor must not be entitled to any

payment for work or material unless it is performed or supplied by the listed DBE.

Brownsville South Padre Island International Airport may provide such written consent only if it agrees, for reasons stated in our concurrence document, that the prime contractor has good cause to terminate the listed DBE or any portion of its work.

Good cause does not exist if the prime contractor seeks to terminate a DBE or any portion of its work that is relied upon to obtain the contract so that the prime contractor can self-perform the work for which the DBE contractor was engaged, or so that he prime contractor can substitute another DBE or non-DBE contractor after contract award. For purposes of § 26.53(f)(3), good cause includes the following circumstances:

- (1) The listed DBE subcontractor fails or refuses to execute a written contract;
- (2) The listed DBE subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the prime contractor;
- (3) The listed DBE subcontractor fails or refuses to meet the prime contractor's reasonable, nondiscriminatory bond requirements;
- (4) The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit worthiness;
- (5) The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant to 2 CFR parts 180, 215, and 1200 or applicable state law;
- (6) Brownsville South Padre Island International Airport has determined that the listed DBE subcontractor is not a responsible contractor;
- (7) The listed DBE subcontractor voluntarily withdraws from the project and provides to Brownsville South Padre Island International Airport written notice of its withdrawal;
- (8) The listed DBE is ineligible to receive DBE credit for the type of work required;
- (9) A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract; and
- (10) Other documented good cause that Brownsville/South Padre Island International Airport determines compels the termination of the DBE subcontractor;

Before transmitting to Brownsville South Padre Island International Airport the request to terminate a DBE subcontractor or any portion of its work, the prime contractor must give notice in writing to the DBE subcontractor, with a copy to Brownsville South Padre Island International Airport sent concurrently, of its intent to request to terminate and the reason for the proposed request.

The prime contractor's written notice must give the DBE five (5) days to respond, advising Brownsville South Padre Island International Airport and the prime contractor of the reasons, if any, why it objects to the proposed termination of its subcontract or portion thereof and why Brownsville South Padre Island International Airport should not

approve the prime contractor's request. If required in a particular case as a matter of public necessity (e.g., safety), Brownsville South Padre Island International Airport may provide a response period shorter than five (5) days.

In addition to post-award terminations, the provisions of this section apply to pre-award deletions or changes to DBEs or their listed work put forward by offerors in negotiated procurements.

When a DBE subcontractor or a portion of its work is terminated by the prime contractor as provided in § 26.53(f), or if work committed to a DBE is reduced due to overestimations made prior to award, the prime contractor must use good faith efforts to include additional DBE participation to the extent needed to meet the contract goal. The good faith efforts shall be documented by the contractor. If Brownsville South Padre Island International Airport requests documentation under this provision, the contractor shall submit the documentation within seven (7) days, which may be extended for an additional seven (7) days, if necessary, at the request of the contractor. Brownsville South Padre Island International Airport shall provide a written determination to the contractor stating whether or not good faith efforts have been demonstrated.

Section 26.55 Counting DBE Participation

DBE participation will be counted toward overall and contract goals as provided in § 26.55. The participation of a DBE subcontractor will not be counted toward a contractor's final compliance with its DBE obligations on a contract until the amount being counted has actually been paid to the DBE.

In the case of post-award substitutions or additions, if a firm is not currently certified as a DBE in accordance with the standards of subpart D of this part at the time of the execution of the contract, the firm's participation will not be counted toward any DBE goals, except as provided for in § 26.87(j).

For FAA-funded projects only, firms that exceed the business size standard in § 26.65(b) will remain eligible for DBE certification and may be counted for DBE credit toward overall and contract goals on FAA-funded projects as long as they do not exceed the small business size standard, as adjusted by the United States Small Business Administration, for the NAICS code(s) in which they are certified.

CERTIFICATION STANDARDS

Section 26.61 – 26.73 Certification Process

Brownsville South Padre Island International Airport is a non-certifying member of the Texas Unified Certification Program (UCP) and relies upon the UCP's determinations of certification eligibility. Texas UCP will use the certification standards of Subpart D of Part 26 to determine the eligibility of firms to participate as DBEs in DOT-assisted contracts. To be certified as a DBE, a firm must meet all certification eligibility

standards. Certifying Texas UCP members make all certification decisions based on the facts as a whole.

For information about the certification process or to apply for certification, firms should contact:

Texas Department of Transportation
Office of Civil Rights
125 E. 11th Street
Austin, TX 78701-2483

The Uniform Certification Application form, Personal Net Worth statement, and documentation requirements can be reviewed at <https://www.transportation.gov/civil-rights/disadvantaged-business-enterprise/ready-apply>.

CERTIFICATION PROCEDURES

Any procedures included here are highlights only. Detailed certification procedures are enumerated in the full Texas UCP agreement. The full UCP agreement can be found at: <http://www.txdot.gov/inside-txdot/division/civil-rights/tucp.html>

Section 26.81 Unified Certification Programs

Brownsville South Padre Island International Airport is a member of a Unified Certification Program (UCP) administered by the State of Texas. The UCP will meet all certification standards and procedures requirements of Subparts D and E of Part 26.

SUBPART F – COMPLIANCE AND ENFORCEMENT

Section 26.101 Compliance Procedures Applicable to [Recipient]

Brownsville South Padre Island International Airport understands that if it fails to comply with any requirement of this part, Brownsville South Padre Island International Airport may be subject to formal enforcement action under § 26.103 or § 26.105 or appropriate program sanctions by the concerned operating administration, such as the suspension or termination of Federal funds, or refusal to approve projects, grants or contracts until deficiencies are remedied. Program sanctions may include, in the case of the FHWA program, actions provided for under 23 CFR 1.36; in the case of the FAA program, actions consistent with 49 U.S.C. 47106(d), 47111(d), and 47122; and in the case of the FTA program, any actions permitted under 49 U.S.C. chapter 53 or applicable FTA program requirements.

Brownsville South Padre Island International Airport understands that, as provided in statute, it will not be subject to compliance actions or sanctions for failing to carry out any requirement of this part because it has been prevented from complying because a

Federal court has issued a final order in which the court found that the requirement is unconstitutional.

Section 26.103 Enforcement Actions Applicable to FHWA and FTA Programs

The provisions of this section apply to enforcement actions under FHWA and FTA programs. ONLY paragraph (2) of this section is also applicable in FAA programs.

2. Compliance reviews. The concerned operating administration may review the recipient's compliance with this part at any time, including reviews of paperwork and on-site reviews, as appropriate. The Office of Civil Rights may direct the operating administration to initiate a compliance review based on complaints received.

Section 26.105 Enforcement Actions Applicable to FAA Programs

Compliance with all requirements of this part by airport sponsors and other recipients of FAA financial assistance is enforced through the procedures of Title 49 of the United States Code, including 49 U.S.C. 47106(d), 47111(d), and 47122, and regulations implementing them.

The provisions of § 26.103(b) and this section apply to enforcement actions in FAA programs.

Any person who knows of a violation of this part by a recipient of FAA funds may file a complaint under 14 CFR part 16 with the Federal Aviation Administration Office of Chief Counsel.

Section 26.107 Enforcement Actions Applicable to Participating Firms

If a firm that does not meet the eligibility criteria of subpart D of this part attempts to participate in a DOT-assisted program as a DBE on the basis of false, fraudulent, or deceitful statements or representations or under circumstances indicating a serious lack of business integrity or honesty, the Department may initiate suspension or debarment proceedings against the firm under 2 CFR parts 180 and 1200.

If a firm, in order to meet DBE contract goals or other DBE program requirements, uses or attempts to use, on the basis of false, fraudulent or deceitful statements or representations or under circumstances indicating a serious lack of business integrity or honesty, another firm that does not meet the eligibility criteria of subpart D of this part, the Department may initiate suspension or debarment proceedings against you under 2 CFR parts 180 and 1200.

In a suspension or debarment proceeding brought under paragraph (a) or (b) of this section, the concerned operating administration may consider the fact that a purported DBE has been certified by a recipient. Such certification does not preclude the

Department from determining that the purported DBE, or another firm that has used or attempted to use it to meet DBE goals, should be suspended or debarred.

The Department may take enforcement action under [49 CFR Part 31](#), Program Fraud and Civil Remedies, against any participant in the DBE program whose conduct is subject to such action under [49 CFR part 31](#).

The Department may refer to the Department of Justice, for prosecution under [18 U.S.C. 1001](#) or other applicable provisions of law, any person who makes a false or fraudulent statement in connection with participation of a DBE in any DOT-assisted program or otherwise violates applicable Federal statutes.

Section 26.109 Confidentiality, Cooperation, and Intimidation or Retaliation

In responding to requests for information concerning any aspect of the DBE program, the Department complies with provisions of the Federal Freedom of Information and Privacy Acts (5 U.S.C. 552 and 552a). The Department may make available to the public any information concerning the DBE program release of which is not prohibited by Federal law.

Notwithstanding any provision of Federal or state law, information that may reasonably be construed as confidential business information will not be released to any third party without the written consent of the firm that submitted the information, including applications for DBE certification and supporting information. However, this information will be transmitted to DOT in any certification appeal proceeding under § 26.89 or to any other state to which the individual's firm has applied for certification under § 26.85.

All participants in the Department's DBE program (including, but not limited to, recipients, DBE firms and applicants for DBE certification, complainants and appellants, and contractors using DBE firms to meet contract goals) are required to cooperate fully and promptly with DOT and recipient compliance reviews, certification reviews, investigations, and other requests for information. Failure to do so shall be a ground for appropriate action against the party involved (e.g., with respect to recipients, a finding of noncompliance; with respect to DBE firms, denial of certification or removal of eligibility and/or suspension and debarment; with respect to a complainant or appellant, dismissal of the complaint or appeal; with respect to a contractor which uses DBE firms to meet goals, findings of non-responsibility for future contracts and/or suspension and debarment).

Brownsville South Padre Island International Airport, contractor, or any other participant in the program will not intimidate, threaten, coerce, or discriminate against any individual or firm for the purpose of interfering with any right or privilege secured by this part or because the individual or firm has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. Brownsville South Padre Island International Airport understands that it is in noncompliance with Part 26 if it violates this prohibition.

Demonstration of Good Faith Efforts - Forms 1 and 2

FORM 1: DISADVANTAGED BUSINESS ENTERPRISE (DBE) UTILIZATION

The undersigned bidder/offeror has satisfied the requirements of the bid specification in the following manner:

- ☐ Bidder/offeror has met the DBE contract goal
The bidder/offeror is committed to a minimum of ____ % DBE utilization on this contract.
- ☐ Bidder/offeror has not met the DBE contract goal
The bidder/offeror is committed to a minimum of ____ % DBE utilization on this contract and has submitted documentation demonstrating good faith efforts.

Legal name of bidder/offeror's firm: _____

Bidder/Offeror Representative:

Name & Title

Signature

Date

FORM 2: LETTER OF INTENT

Note: The authorized representative (AR) named below must be an individual vested with the authority to make contracting decisions on behalf of the firm.

Name of bidder/offeror's firm: _____

Name & title of firm's AR: _____

Phone: _____ Email: _____

Name of DBE firm: _____

Name & title of DBE firm's AR: _____

Address: _____

City: _____ State: _____ Zip: _____

Work to be performed by DBE firm:

Description of Work	NAICS	Dollar Amount / %*	Manufacturer/Regular Dealer/Distributor/Broker**

**Percentage is to be used only in negotiated procurements*

***For DBE suppliers only, state how the DBE will perform. For dealer/distributor/broker, Form 3 must be included.*

The undersigned bidder/offeror is committed to utilizing the above-named DBE firm for the work described above. The total expected dollar value of this work is \$ _____. The bidder/offeror understands that if it is awarded the contract/agreement resulting from this procurement, it must enter into a subcontract with the DBE firm identified above that is representative of the type and amount of work listed. Bidder/offeror understands that upon submitting this form with its bid/offer, it may not substitute or terminate the DBE listed above without following the procedures of 49 CFR Part 26, §26.53.

Signature of Bidder/Offeror's Authorized Representative

Date: _____

The undersigned DBE affirms that it is ready, willing, and able to perform the amount and type of work as described above, and is properly certified to be counted for DBE participation therefore.

Signature of DBE's Authorized Representative

Date: _____

If the bidder/offeror does not receive award of the prime contract, all representations in this Letter of Intent shall be null and void.

Submit this page for each DBE subcontractor.

ATTACHMENT 7

Administrative Enforcement Mechanisms

The Brownsville South Padre Island International Airport has available several remedies to enforce the DBE requirements contained in its contracts, including, but not limited to, the following:

1. Breach of contract action, pursuant to the terms of the contract, as follows
Any violation or breach of terms of this contract on the part of the contractor or its subcontractors may result in the suspension or termination of this contract or such other action that may be necessary to enforce the rights of the parties of this agreement.

Owner will provide Contractor written notice that describes the nature of the breach and corrective actions the Contractor must undertake in order to avoid termination of the contract. Owner reserves the right to withhold payments to Contractor until such time the Contractor corrects the breach or the Owner elects to terminate the contract. The Owner's notice will identify a specific date by which the Contractor must correct the breach. Owner may proceed with termination of the contract if the Contractor fails to correct the breach by deadline indicated in the Owner's notice.

The duties and obligations imposed by the Contract Documents and the rights and remedies available thereunder are in addition to, and not a limitation of, any duties, obligations, rights and remedies otherwise imposed or available by law.

2. Breach of contract action, pursuant to Texas State Sec. 2260.051.

In addition, the Federal government has available several enforcement mechanisms that it may apply to firms participating in the DBE program, including, but not limited to, the following:

1. Suspension or debarment proceedings pursuant to 49 CFR Part 26.
2. Enforcement action pursuant to 49 CFR Part 31.
3. Prosecution pursuant to 18 USC 1001.

ATTACHMENT 10

Small Business Element

1. Objective/Strategies

(1) Prime contracts under \$20,000 will be available for small businesses. Only those firms meeting the definition of a small business, as described below, will be eligible for award of these contracts.

(2) In multi-year design-build contracts or other large contracts (e.g., for “megaprojects”) requiring bidders on the prime contract to specify elements of the contract or specific subcontracts that are of a size that small businesses, including DBEs, can reasonably perform.

(3) On prime contracts not having DBE contract goals, requiring the prime contractor to provide subcontracting opportunities of a size that small businesses, including DBEs, can reasonably perform, rather than self-performing all the work involved.

(4) Identifying alternative acquisition strategies and structuring procurements to facilitate the ability of consortia or joint ventures consisting of small businesses, including DBEs, to compete for and perform prime contracts.

(5) To meet the portion of the overall goal projected to be met through race-neutral measures, ensuring that a reasonable number of prime contracts are of a size that small businesses, including DBEs, can reasonably perform.

2. Definition

- DBE firms are identified in the Small Business element of Brownsville/South Padre Island International Airport’s DBE program as eligible for the program unless there is a DBE micro-Small Business Program element in place.
- Size standard is consistent with 49 CFR 26.5 and must be no larger than the Small Business Administration’s size standards. DBE firms and small firms eligible for the program should be similarly sized to reduce competitive conflict between DBE and non-DBE firms.

3. Verification

- Brownsville South Padre Island International Airport will diligently attempt to minimize fraud and abuse in the SB element of its DBE program by verifying program eligibility of firms.

4. Monitoring/Record Keeping

- The information will be organized in the DBELO's office.
- SB element will be monitored annually.

5. Assurances

- The program is permitted under state law;
- Certified DBEs that meet the size criteria established under the program are presumptively eligible to participate in the program;
- No limits are placed on the number of contracts awarded to firms participating in the program, but every effort will be made to avoid creating barriers to the use of new, emerging, or untried businesses; and
- Aggressive steps will be taken to encourage those minority and women owned firms that are eligible for DBE certification to become certified.
- The program is open to small businesses regardless of their location (i.e., there is no local or other geographic preference).
